Satellite Symposium

Nutritional Modulation – is it Worth for our Crohn’s Disease Patients?

Friday 12th May 2017
07:30 – 08:30 | South Hall

50th Annual Meeting of the European Society for Paediatric Gastroenterology, Hepatology and Nutrition (ESPGHAN)
Prague | Czech Republic

Nestlé Nutrition Institute
Induction Therapy with Exclusive Enteral Nutrition – Barriers to Success

“Only if the prescribing physicians are trained and convinced of the efficacy of exclusive nutritional (EEN) therapy for Crohn’s disease, will the patients feel comfortable and be able to follow nutritional induction therapy successfully.”

Prof. Frank Rümmele | France
Department of Paediatric Gastroenterology, Hepatology and Nutrition, Hôpital Necker-Enfants Malades, Paris
Speaking at 07:30

Understanding the «Nutrinomics» of Nutritional Therapy in IBD

“The benefits of EEN have been recognised for more than 50 years yet for most of that time the precise mechanism of action of EEN has remained a mystery.”

Dr. Richard Russell | UK
Department of Paediatric Gastroenterology, The Royal Hospital for Children, Glasgow
Speaking at 07:40

New (and old) Diets to Treat Crohn’s Disease – a new Concept?

“All (parents of) Crohn’s disease patients have the same burning question; what diet is to be advised to treat their disease? New (and old) diets to treat Crohn’s disease; facts, faith and fiction.”

Dr. Lissy de Ridder | The Netherlands
Erasmus University Medical Center / Sophia Children’s Hospital, Rotterdam
Speaking at 08:05

Chair: Frank Rümmele | France
